

Facts of Volunteer Firefighting

- Volunteers comprise 85% of firefighters in the United States
- The majority of fire departments in the United States are volunteer
- The number of Volunteer Firefighters in the United States has declined more than 12% since 1983
- Small and mid-sized communities rely heavily on volunteer firefighters
- Volunteer firefighters play an invaluable role in protecting lives and property and are often the vanguard between life and death

The HCES Fire Training Program meets NFPA 1001 Standard for Firefighter Professional Qualifications 2013 edition. HCES Fire Training Program exceeds the minimum requirements for TCA Title 4 Chapter 24 relative to minimum training requirements for firefighters. And is approved by the Tennessee Commission on Firefighting. Upon completion of this program applicants may take the state practical exam. Upon passing the state practical exam applicants may take the state written exam for Firefighter I & II.

Once successfully completing the state Practical and written exams the applicant is a state certified firefighter I or II by the Tennessee Commission on Firefighting.
